RESUME

Skilled in front-end and back-end development since 2016, I am proficient in React.js, Vue.js, Node.js, PHP, Python, and React Native. Expert in crafting and scaling robust applications for optimal functionality.

EDUCATION

Bachelor of Information System - Campograndense Unified Educational Foundation, 2017

WORK EXPERIENCE

Full Stack Developer, REVVO, 2019 - Current

- Developed and enhanced educational platforms using Moodle LMS with PHP
- creating custom interfaces and plugins with React and Vue.js for a dynamic user experience
- Worked on separate projects utilizing Laravel and Node.js for backend integrations

Software Engineer, Sawaup, Oct 2022 - Oct 2023

- Developed a professional education platform offering U.S. college courses to corporate employees. Enhanced user interfaces using React and MUI styling. Employed Node.js with Next.js and utilized a monorepo structure for streamlined development. React / Vue.js

Frontend Developer, Trinks.com, Sep 2017 - May 2019

- At Trinks, I lead front-end development for web and mobile platforms, enhancing interfaces with ASP.NET, CSS, JavaScript, and HTML5. I apply responsive design principles and collaborate on API integration and data optimization using SQL Server, Angular.js, Vue, and Knockout.js.
